of Engineers**
Louisville District
P.O Box 59
Louisville, KY 40201-0059

Mr. Stephen Durrett

Deputy District Engineer and Chief of Planning Programs and Project Management Division, Louisville District

Stephen G. Durrett is a registered professional engineering with the Louisville District U.S. Army Corps of Engineers currently serving as the Deputy District Engineer.

Prior to becoming Deputy District Engineer, Mr. Durrett was the Chief of Engineering Division where he was responsible for the management and execution of the District's engineering program, and assured that the technical program was structured, staffed and managed to be responsive to project requirements.

He has a B.S. in Civil Engineering from University of Kentucky and a M.S. in Geotechnical Engineering from University of Cincinnati.

Mr. Durrett has 29 years of experience with the Corps in the Civil Works & Military programs. He started in the District working in the Geotechnical Engineering Section. He has worked in various organizations in the Corps of Engineers including Planning, Project Management, and Engineering. He has served a 1-year assignment at the Corps Headquarters as the first Levee Safety Program Manager following Hurricane Katrina and is currently involved in a Corps Headquarters team developing policies and procedures for a Levee Safety Program.
